34. Domestic Preference	34.1	If the BDS so specifies, the Procuring Agency will grant a margin of preference to certain goods in line with the rules, regulations, regulatory guides or instructions issued by the Authority from time to time.
35. Determination of Most Advantageous Bid	35.1	In case where the Procuring Agency adopts the Cost Based Evaluation Technique and, the Bid with the lowest evaluated price—from amongst those which are eligible, compliant and substantially responsive shall be the Most Advantageous Bid.

	35.2	<p>The Procuring Agency may adopt the Quality & Cost Based Selection Technique due to the following two reasons:</p> <ol style="list-style-type: none"> i. Where the Procuring Agency knows about the main features, usage and output of the products; however not clear about the complete features, technical specifications and functionalities of the goods to be procured and requires the bidders to submit their proposals defining those features, specifications and functionalities; or ii. Where the Procuring Agency, in addition to the mandatory requirements and mandatory technical specifications, requires parameters specified in Evaluation Criteria to be evaluated while determining the quality of the goods: <p>In such cases, the Procuring Agency may allocate certain weightage to these factors as a part of Evaluation Criteria, and may determine the ranking of the bidders on the basis of combined evaluation in accordance with provisions of Rule 2(1)(h) of PPR-2004.</p>
<p>36. Post-qualification of Bidder and/or Abnormally Low Financial Proposal</p>	36.1	<p>After determining the Most Advantageous Bid, if neither the pre-qualification was undertaken separately nor any qualification parameters were undertaken as part of determining the Most Advantageous Bid, the Procuring Agency shall carry out the post-qualification of the Bidder using only the requirements specified in the BDS.</p> <p>In case of International Tendering, the parameters for incorporation or licensing within Pakistan may be fulfilled as part of post qualification.</p>
	36.2	<p>Where the Bid price is considered to be abnormally low, the Procuring Agency shall perform price analysis either during determination of Most Advantageous Bid or as a part of the post-qualification process. The following process shall apply:</p> <ol style="list-style-type: none"> (a) The Procuring Agency may reject a Bid if the Procuring Agency has determined that the price in

combination with other constituent elements of the Bid is abnormally low in relation to the subject matter of the procurement (i.e. scope of the procurement or ancillary services) and raises concerns as to the capability and capacity of the respective Bidder to perform that contract;

(b) Before rejecting an abnormally low Bid the Procuring Agency shall request the Bidder an explanation of the Bid or of those parts which it considers contribute to the Bid being abnormally low; take account of the evidence provided in response to a request in writing; and subsequently verify the Bid or parts of the Bid being abnormally low;

(c) The decision of the Procuring Agency to reject a Bid and reasons for the decision shall be recorded in the procurement proceedings and promptly communicated to the Bidder concerned;

(d) The Procuring Agency shall not incur any liability solely by rejecting abnormally Bid; and

(e) An abnormally low Bid means, in the light of the Procuring Agency's estimate and of all the Bids submitted, the Bid appears to be abnormally low by not providing a margin for normal levels of profit.

Guidance for Procuring Agency:

In order to identify the Abnormally Low Bid (ALB) following approaches can be considered to minimize the scope of subjectivity:

- (i) Comparing the bid price with the cost estimate;
- (ii) Comparing the bid price with the bids offered by other bidders submitting substantially responsive bids; and
- (iii) Comparing the bid price with prices paid in similar contracts in the recent past either government- or development partner-funded.

	36.3	The Procuring Agency will determine to its satisfaction whether the Bidder that is selected as having submitted the most advantageous Bid is qualified to perform the contract satisfactorily, in accordance with the criteria listed in ITB 13.3.
	36.4	The determination will take into account the Bidder's financial, technical, and production capabilities. It will be based upon an examination of the documentary evidence of the Bidder's qualifications submitted by the Bidder, pursuant to ITB 13.3, as well as such other information as the Procuring Agency deems necessary and appropriate. Factors not included in these Bidding Documents shall not be used in the evaluation of the Bidders' qualifications.
	36.5	Procuring Agency may seek "Certificate for Independent Price Determination" from the Bidder and the results of reference checks may be used in determining award of contract. Explanation: The Certificate shall be furnished by the bidder. The bidder shall certify that the price is determined keeping in view of all the essential aspects such as raw material, its processing, value addition, optimization of resources due to economy of scale, transportation, insurance and margin of profit etc.
	36.6	An affirmative determination will be a prerequisite for award of the contract to the Bidder. A negative determination will result in rejection of the Bidder's Bid, in which event the Procuring Agency will proceed to the next ranked bidder to make a similar determination of that Bidder's capabilities to perform satisfactorily.

STATEMENT OF WORK (SOW)

A. BACKGROUND

There are many watch-lists against which an organization may, for regulatory or risk purposes, be required to screen individuals and entities when initiating a business relationship. These include sanctions lists published by governments or economic, political, and law enforcement bodies, lists published by commercial sources, such as politically exposed person (PEP) lists, etc.

Like commercial organizations, regulatory authorities including corporate registries may also need to deploy watch-lists screening software to verify the credentials of the individuals and entities being inducted in the formal corporate sector, and effectively meet their Targeted Financial Sanctions obligations as per Financial Action Task Force (FATF) recommendations and other international standards.

Sanctions lists contain entries of debarred individuals or entities due to involvement in criminal activity such as money laundering, international terrorism, and financial crime. Sanctions lists may also include lists of embargoed countries.

PEP lists contain entries of high-profile (and often high-value) public figures, such as business leaders, prominent social figures, and members of political parties. Due to their position in society, their political position, or associations and relationships with other high-profile parties, PEPs may be subject to potential bribery or misuse their power and influence for personal gain or financial advantage.

B. OBJECTIVE

The objective of the invitation is to stipulate the deliverables & evaluation criteria of the potential contractor for Procurement for Software Licenses, Implementation & Support & Maintenance of Watch-Lists Screening Software

The solution will be integrated with our Corporate Registration System through APIs.

These include sanctions lists published by governments or economic, political, and law enforcement bodies, lists published by commercial sources, such as politically exposed person (PEP) lists, etc.

Like commercial organizations, regulatory authorities including corporate registries may also need to deploy watch-lists screening software to verify the credentials of the individuals and entities being inducted in the formal corporate sector, and effectively meet their Targeted Financial Sanctions obligations as per Financial Action Task Force (FATF) recommendations and other international standards.

Sanctions lists contain entries of debarred individuals or entities due to involvement in criminal activity such as money laundering, international terrorism, and financial crime. Sanctions lists may also include lists of embargoed countries.

PEP lists contain entries of high-profile (and often high-value) public figures, such as business leaders, prominent social figures, and members of political parties.
